A Coming Event.

The coming concert and entertainment to be given by the Ariel Banjo, Mandolin and Guitar Club at Exeter's hall, bids fair to be a financial as well as an artistic success. It takes place on the evening of May 22, Tuesday.

The Teachers of the Country.

The National Educational Association will meet this year at Asbury Park, July 10 to 14, inclusive. The round trip rate from here will be one fare plus \$2, the tickets good till the last of September. The usual good sized delegation will go from Wheeling and vicinity.

Getting Ready.

The ground in the rear of Arion hall, on the South Side, is being cleared preparatory to the building of the fine brick addition, mention of which has been made. The frame janitor's house is now being demolished, and the ground will be clear in a day or two.

Will Soon be Here.

"Have just landed, all O. K."  
The above is the language of a telegram received yesterday afternoon by Harry Stewart, of the South Side, from Dr. John H. Pipes, who with Mrs. Pipes has been on an extended European tour. They will be in Wheeling early next week, probably.

The Miners Will Be Represented.

Notwithstanding the action of the West Virginia coal operators in resolving not to be represented in the Cleveland conference between operators and striking miners, the Mine Workers' Union of this district will have a delegate there. At a meeting held at the Trades Assembly hall yesterday Jerry Mead was named as a delegate. He will leave for Cleveland to-day.

Changes of Pan Handle Conductors.

Several changes in the runs of conductors on the Pittsburgh division of the Pan Handle, have been made recently. Conductor Paul Rhoades will hereafter run through from Columbus to Pittsburgh; Conductor Shull, of the Pittsburgh-Dennison, has been changed to run between Columbus and Dennison, and Conductor Lafferty, who has been running from Pittsburgh to Wheeling, has been put on the run between Pittsburgh and Dennison.

The Bellaire Nail Works Improvements.

The Bellaire Nail Works Company will begin next week the work of building an additional furnace, a new machine shop, casting house, and three "stoves," or heating furnaces, on the east side of the present steel works. The ground east of the present works has all been made by the company with their slag and cinders, and the new addition will amount to about one-third of the present plant. The estimated cost of the improvements they will make is placed at about \$250,000.

The Fulton Water Main.

There were many more applications for a chance to work on the new city water main to Fulton yesterday than the water board could possibly employ. Work will begin Monday morning, with a force of 200 men, all of whom were secured yesterday. Work will begin in front of L. Heller's place, at Fulton, and proceed up the national road to the top of the hill, where it will connect with the main already laid. A connection will also be made at Schenk's with the main running across the peninsula, thus forming a loop.

In the Circuit Courts.

In Judge Paul's court yesterday, in the case of P. L. Eckhardt vs. Charles Becker, the evidence was partly heard and the plaintiff withdrew a juror and took a non-suit. The case goes to rules for an amended declaration.

A decree of reference was entered in the case of John E. Clator vs. Charles Otto et al.

In the case of Henry M. Babcock and wife vs. William H. H. Babcock's administrator, judgment was given for plaintiff by default.

In the matter of the application of Kraus Bros. vs. Leo Baer for the appointment of a receiver, the motion was set for argument May 19.

BESSIE H. BEXLOS, Burlington, Vt., had a disease of the scalp, causing her hair to become very harsh and dry, and to fall so freely that she scarcely dared to comb it. Ayer's Hair Vigor gave her a healthy scalp, removed the dandruff, and made the hair thick and glossy.

THE GREAT ART WORKS.

Handsome Illustrated Works at a Merely Nominal Price Accessible to all.

To-day Part 21 of the "Sights and Scenes of the World" will be ready for delivery to subscribers who bring in their coupons and ten cents. Part 7 of "Glimpses of America" will also be delivered to-day. At the nominal prices at which these great art works, the finest ever issued in the world, are offered to subscribers of the INTELLIGENCER, nobody can afford to be without them. At the counting room samples of the artistic binding for the Sights and Scenes, as well as for the World's Fair Photos, can now be seen. The prices at which these bindings can be furnished is surprisingly cheap, when one takes into consideration the fact that the backs from which choice can be made are all neat and beautiful, worthy of the marvelous books they are meant to cover.

The INTELLIGENCER is also prepared to show very artistic bindings for Shepp's World's Fair Photographs to those who have the parts of that work. The backs furnished for it are as fine and as cheap as those for the other works, and those who have the books should call and inspect the samples and learn the very low prices before having inferior bindings put on at a greater cost.
